

NAPKINS WITH LOGO

A DETAIL THAT SHAPES YOUR BRAND

PAW
Decor Collection

STAND OUT FROM THE COMPETITION

We specialize in the production of napkins made of white tissue paper, as well as premium Airlaid raw material. Our products not only elevate table aesthetics, but also enhance brand image and boost recognition.

Create custom napkins with your logo that are sure to be noticed and remembered. Perfect for hotels, restaurants, catering services, as well as events, business meetings, and trade shows. Branded napkins are a simple yet powerful way to express visual consistency, attention to detail, and the unique style of your venue.

We give you complete creative freedom to align every detail with your vision. When you work with us, you get quality, professionalism, and support at every stage.

We will take care of your brand!

Your idea on a napkin

TISSUE

A wide range of tissue napkin shapes and colours allows you to perfectly match your brand's visual identity. Add a unique print, feature your logo, or choose a pattern that highlights your business and brings your branding to life. Use our personalization options to create a memorable atmosphere at every table.

DIGITAL PRINTING

Digital printing is a modern and innovative production method that enables a wider range of colours, resulting in designs that appear strikingly realistic. Every fine line, subtle motif, and precise detail is reproduced with exceptional clarity and accuracy.

This technology offers the flexibility to customize each design to your individual needs – with no need for printing plates. It's the perfect solution for personalized orders and short production runs.

Digital napkin printing is ideal wherever speed, premium quality, and full creative freedom matter. It's an excellent choice for special occasions, seasonal promotions, and one-off events.

START WORKING WITH US

1. YOU SEND YOUR DESIGN OR LOGO

The first step of production is to send us your design or logo. You provide your own graphics, photos or instructions for the design. This step initiates the process of creating a personalised design.

2. WE PREPARE VISUALISATIONS

Once we receive your design or logo, our graphics department will create visualisations of the products, showing the design details. You will be able to review the visuals carefully and make changes, if necessary, to ensure that the design meets your expectations.

3. YOU APPROVE THE DESIGN

The next stage is to approve the final design. This is the moment when all the changes you have requested have been made and you agree to start production. Approval of the design is crucial as it will be used to produce your personalised products.

4. WE DELIVER YOUR PERSONALISED PRODUCTS

The final stage is the delivery of the finished products. As soon as production has been completed, you will be notified that your order is ready and when it will be delivered to you.
